Distance Learning Resources for Families:

The Mendocino County Office of Education would like to offer all of our Mendocino County families access to engaging and flexible educational resources to meet the individual needs of your child(ren) and your unique family situation. These resources have been intentionally chosen to complement and support the coursework and learning you are already receiving from your current school(s).

Staying safe, connected, and consistent with routines is important for children (of all ages). We at MCOE respect the choice that you have as a parent to develop and select activities and create learning plans and schedules for your child that are do-able and work with your family structures at home. **(please click on the image for resources)**
