

Supporting Educators with next steps in Distance Learning

Mendocino County Office of Education, in partnership with Corwin, brings you an exclusive book study event

This professional learning series is designed to support educators in building both our students' capacity (and our own) for distance learning through the application of Visible Learning® research.

Utilizing what educators everywhere have learned over the course of pandemic teaching, we can now improve our overall strategy to adapt to any and every environment and promote effective distance learning.

This series will explore:

- The implementation of teacher credibility and teacher clarity in distance learning
- The design of engaging teaching and learning experience useful in distance learning
- Assessment, grading, and feedback in distance learning

Douglas Fisher

Nancy Frey

Aida Allen-Rotell

Olivia Amador-Valerio

Keynote | Nancy Frey | November 2, 2020 | 3:30 – 5:00 pm
